COMPUCLEAN®
for Food Sanitation

FRUSTRATED AND OVERWHELMED BY YOUR THIRD-PARTY AUDITS AND ASSOCIATED PAPERWORK?

Let us show you how we have helped other sanitation customers reduce paperwork and streamline reporting using Spartan Chemical's CompuClean Electronic Sanitation Management System.

- CompuClean offers a simple, cloud-based set of tools to help any sanitation operation more effectively manage performance and documentation.
- Leverage mobile phones and tablets to streamline data collection.
- Realize significant decreases in paperwork and time spent compiling reports.

TAKE CONTROL OF SANITATION DOCUMENTATION TO GENERATE RESULTS

CompuClean consolidates inspections, corrective actions, and the Master Sanitation Schedule (MSS) into one integrated electronic system. CompuClean provides customizable templates to allow Quality Managers and Sanitation Managers the flexibility to build a program that meets the needs of their specific facility while **enhancing product safety and protecting your brand.**
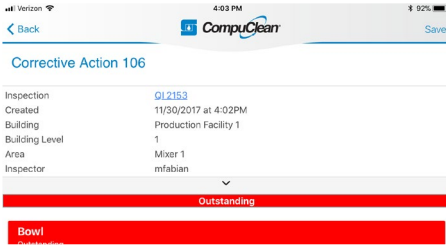

CHALLENGE	SOLUTION	BENEFITS
Piles of paper quality inspection forms	CompuClean Quality Assurance, Mobile App	• Quick, customizable mobile inspections • Paperless collection of visual, ATP, and environmental inspection data
Shuffling paper corrective action forms	CompuClean Corrective Actions, Mobile App	• Create corrective actions during inspections and communicate to staff via text or email • Track corrective action status with easy to read color coding
Hours spent compiling audit reports	CompuClean Reporting	• Highly filterable reporting to drill down to the detail you need • Indefinite data retention with secure and reliable cloud storage
Stacks of work orders for Master Sanitation Schedule	CompuClean Periodic Project Management, Mobile App	• Automated scheduling of MSS work orders • Email reminders for assigned work and simple reporting to document compliance

Spartan®

QUALITY ASSURANCE

Perform quick and effective mobile inspections and audits with the CompuClean Mobile App for iPad®, iPhone®, iPod Touch®. CompuClean Mobile is also available on Android™ devices.

- Inspect sanitation at any facility with a custom designed inspection program to drive performance.
- Create, assign, and complete corrective actions to document resolution of issues.
- Capture, track, annotate, and caption images to reinforce inspection results.
- Offline mobile inspection capability for audits in areas with no network coverage.
- Barcode and scan areas for instant inspection creation.

CORRECTIVE ACTIONS

Create corrective actions immediately during inspections to document issue resolution in real time.

- Text and email alert capability to communicate correctives to employees.
- Mobile creation, resolution, and verification of corrections.
- Process steps logged and time stamped to validate completion dates and times.

PERIODIC PROJECT MANAGEMENT

Effectively schedule, track, and communicate all aspects of the Master Sanitation Schedule.

- Document SSOP steps and include in work orders.
- Automated rescheduling of completed projects to keep schedule on track.
- Easily manage varying scopes of work for different locations and sections of your facilities.
- Email reminders for upcoming assignments.

ADVANCED REPORTING CAPABILITIES

Generate reports on demand and distribute throughout your organization.

- Multiple filter options to help drill data down to any level.
- Export reports to PDF, Word, Excel and more, for easy distribution.
- Multiple chart and graph options to help visualize trends and results.
- Unlimited data retention and storage.

EXCEPTIONAL VALUE

Don't spend thousands of dollars a year on sanitation management software. CompuClean is offered as a part of the relationship with Spartan Chemical.

- **Spartan Product Purchase Requirement:** $10,000+ annually.
- **Cost:** $420 per year for 1 – 4 users, $600 per year for unlimited users. No additional costs.
- **Mobile App:** Available on Android™ phones and tablets, iPhone®, iPad®, and iPod Touch®. Also available on Kindle™ tablets.
- **Support:** Implementation assistance, training, and upgrades are included and provided by Spartan Chemical.
